FLEXNET CABLING SOLUTIONS™ & ACCESSORIES

PACTECH FLEXNET CABLING SOLUTIONS

Pactech's FlexLite™ 28AWG Ethernet cable is the core of FlexNet cabling solutions. It is compact, lightweight Ethernet cable product family designed for applications in data center racks and other structured cable infrastructures with these outstanding characteristics:

- 65% Smaller diameter for better bundle installation and better airflow
- 40% Tighter bend radius for cable routing
- 60% Lighter weight for easier installation
- Environmentally friendly with Low Smoke Zero Halogen

OUR STORY

Founded in 1994 in the Silicon Valley, Pactech started by providing custom cables and wire harnesses for computer systems. As the rapid growth and evolution of the Internet, cloud computing, networking, and storage technologies over the last two decades, our business has become the leading cable solution provider for systems, data centers, buildings, and infrastructures.

Our mission is to deliver customers comprehensive cable offerings through innovative engineering, quality manufacturing, and supply chain efficiency. We serve a broad range of customers: cloud/service providers, high tech, manufacturing, transportation, utility, medical, and government. We have customers in North America, Asia Pacific, Europe, and Latin America.
