

Soft Flex DC Zip Wires for Easy Routing

P-W-1015-XX-KR-P80 Series – UL1015 6, 8, 10, 12, 14 AWG

- Red / Black zip cord with PVC 80 Softness enables easy turn and flexible routing on all applications and work environments like data centers, labs, automobile wire harnesses, AI automation, robots, motion devices, hospitals, and IT/server rooms with tight space concerns.
- Specifications summary: Rated temperature 105°C, Voltage 600V, UL CSA, Construction 189 / 0.003mm, Bare Annealed Stranded Copper. All parts and materials conform to RoHS.
- These soft zip wires can be widely used for many power / electrical applications, replacing the traditional rigid wires, and work well with Anderson power connectors, ... etc.
