# 28 AWG Ethernet Patch Cord Series

FlexSlim CAT6 Cable UTP

- **Smallest cable outer diameter of 3.8 mm** which maximizes cable routing flexibility and rack airflow
- **Lightest and most flexible CAT6 Cable** with bend radius of 15mm
- **Environmental friendly:** Met the CM/UL1685 flame test ratings and Low Smoke Zero Halogen (LSZH) jacket classification
- **LSZH and PVC Jackets available**

FlexMini™ 6, 6A Cable UTP

- **The shortest RJ45 plug and boot** with an overall connector length of 17.5mm
- **Ideal for high-density applications** with very tight space requirement, 40% smaller in cable OD (3.8mm)
- Supporting CAT6 UTP 1G and 6A 10G UTP Ethernet connectivity

FlexRibbon™ CAT6 UTP

- The first 4 cables in one ribbon allows for efficient cable planning & design
- **Faster cable installation**
- **Easy cable management** with very low bend radius
- **Environmental friendly:** Meets the CM/UL1685 flame test ratings and Low Smoke Zero Halogen (LSZH) jacket classification
- **Looks neat, organized and professional**

Slimmest Coiled CAT6 Cable

- **CAT6 UTP 28AWG**, **Coiled PVC,** RoHS Compliance
- **Flexible extend and retract** with the coiled design, without stressing the wire
- Suitable for **A.I. and robotic applications**
- Deploy in Hospital, Lab, and Data Center

FlexLite™ CAT6A U/FTP & S/FTP

- **Ideal for high-speed applications** up to 10 Gbps
- 30% - 40% tighter in cable bend radius for flexible cabling routing in tight space, thus improving airflow
- 50% - 65% smaller in bundle size for rack installation
- **Environmentally friendly** with Low Smoke Zero Halogen (LSZH) jacket material

FlexRibbon™ CAT6A U/FTP x4 Step Length

- The first 4 cables in one ribbon allows for efficient cable planning & design
- **Faster cable installation & easy cable management**
- Easy routing and Flexible with **Soft PVC jacket** material
- Looks **neat, organized and professional**

SuperFlat CAT6 UTP

- **Flat cable design** for maximum cable routing and improved rack airflow, very flexible with bend radius of 15mm
- **30% lighter** than regular round CAT6
- 28AWG cable compliant with EIA/TIA-568-C.2
- **Low profile connector** also available
- 6 cable colors available: Black, Blue, Green, Orange, White, and Yellow

SuperFlat CAT6 STP

- **The toughest rigid cable** for rugged and harsh environment
- **28AWG cable** compliant with EIA/TIA-568-C.2
- Stable performance with 4 x STP with a drain wire to minimize EMI.
- **Environmental friendly** with the Low Smoke Zero Halogen (LSZH) jacket
