

# SOUND INSULATION CABINET

## SoundBox Silence Booth

## PRODUCT INTRODUCTION

Soundbox Silence Booth provides a private and comfortable place to do your most creative work. Our booth structure consists of a supporting frame made from aerospace-grade aluminum panels, carbon composite panels, and double-glazed glass, of which it can also be found on high-speed trains. To simplify the assembly process, only one type of fastener is needed. The air in the booth is fully circulated every three minutes, and it is equipped with 4000k natural color lighting and 12V USB power supply, power rated for 100-220V/50Hz.

## THE BENEFITS

- Specially optimized sound insulation
- Quiet, spacious, and peaceful environment
- Increased productivity and focus
- State-of-the-art soundproofing and acoustic material
- Hearing protection from the loudest work environments
- Stylish designs to match your company aesthetic
- Perfect for various applications in the office or data center
- Cost and space-efficient

## THE MAIN FEATURES

- Excellent soundproofing materials
- Flexible sizes and ease of mobility
- Aerospace-grade aluminum frame
- Carbon composite panels
- Tempered glass used on high-speed trains
- Easy assembly with only one type of fastener
- Air inside is 100% refreshed every 3 minutes
- 4000K natural color LED lighting
- Power outlet with 12V USB charger inside
- Suitable for 100-220V/50Hz power supply
- Optional furnishing

## PRODUCT DETAILS

### Sound Insulation

We fully utilize Marshall Acoustic's simulation software to iterate and obtain optimal acoustic performance.

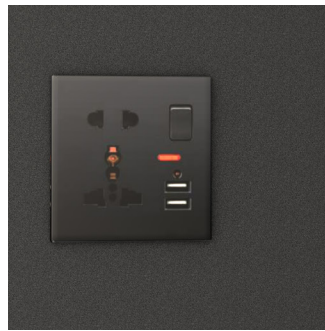

### Ventilation

The booth's low-noise and maze-like ventilation system circulates air every three minutes while preserving its soundproof characteristics.

### Lighting

4000K natural color and 150 lux LED lighting provides a comfortable environment. When not in use, the lights will turn off to conserve energy.

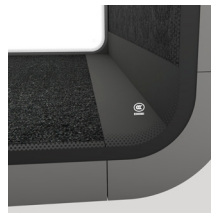

### 110-220V Power

The booth requires a 110-220V power supply to operate and features a built-in 12V USB charging port with an extra power outlet.

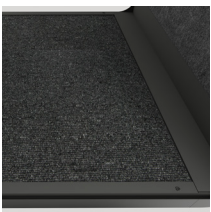

### Acoustic Interior

Polyester fiber sound absorbers reduce outside noise from inside the environment.

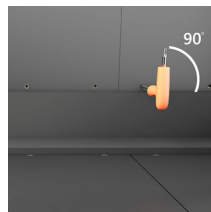

### Sound Insulation Tempered Glass

The Silence Booth utilizes the same type of noise-reducing glass found on high-speed trains.

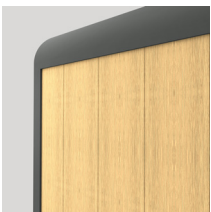

### Modular Carpet

Moisture-proof, anti-mildew materials, and easy to clean and maintain.

### Easy Assembly

Specially-designed fastening system, lockable with a simple 90-degree turn. No screws, nails, or glue required.

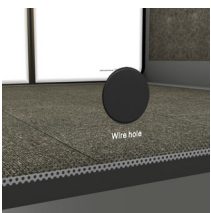

### Durable Exterior

The exterior panels are covered with nano PP layer from Korea, which forms a durable, moisture, fire, and UV-resistant finish.

### Damping Pad

A rubber-based anti-vibration layer forms a cushion underneath the booth to further dampen sounds.

### External Cable Opening

An external opening allows cables to easily pass into the booth. The opening may be closed when not in use.

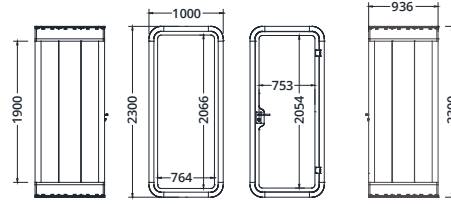

### Optional Furniture

We can recommend what type of aesthetic and acoustic furniture is optimal for your Silence Booth.

## PRODUCT MEASUREMENT

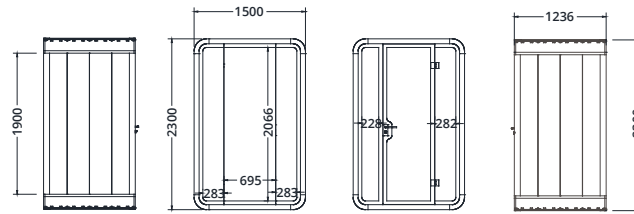

### SILENCE BOOTH SOLO

Capacity One person  
 External dimension D936 x W1000 x H2300 (MM)  
 Internal dimension D900 x W840 x H2140 (MM)

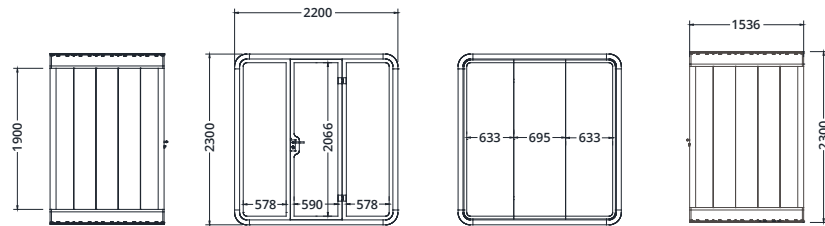

### SILENCE BOOTH DUO

Capacity Two people  
 External dimension D1236 x W1500 x H2300 (MM)  
 Internal dimension D1200 x W1340 x H2140 (MM)

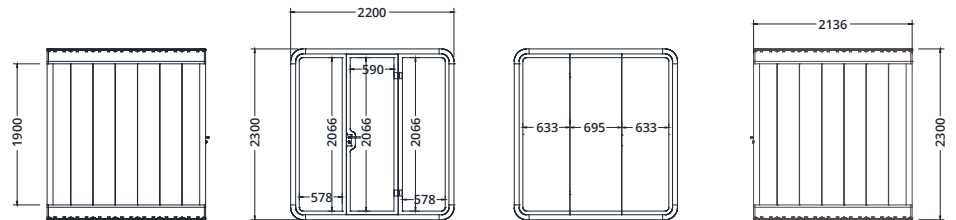

### SILENCE BOOTH QUAD

Capacity Four people  
 External dimension D1536 x W2200 x H2300 (MM)  
 Internal dimension D1500 x W2040 x H2140 (MM)

### SILENCE BOOTH HEXA

Capacity Six people  
 External dimension D2136 x W2200 x H2300 (MM)  
 Internal dimension D2000 x W2040 x H2140 (MM)

# POSSIBLE APPLICATIONS

## OFFICE

Revolutionize your workspace.

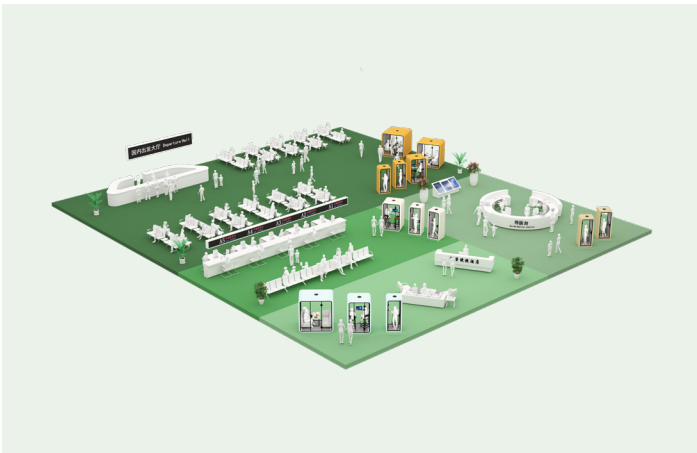

## EDUCATION

Revolutionize your musical education space.

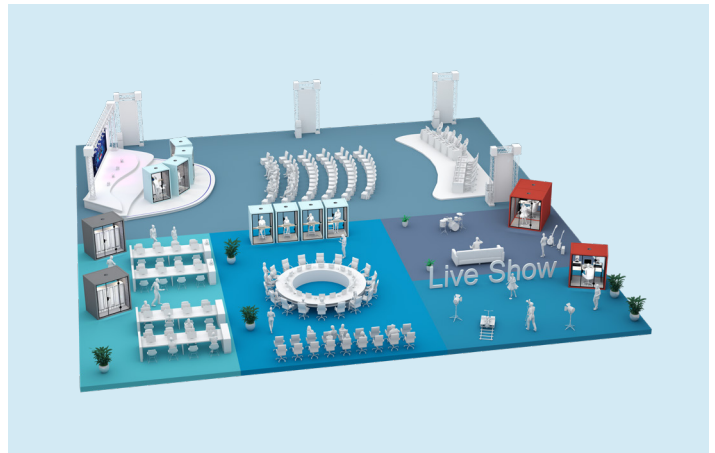

## APPLICATION

Shared spaces have just become personal.

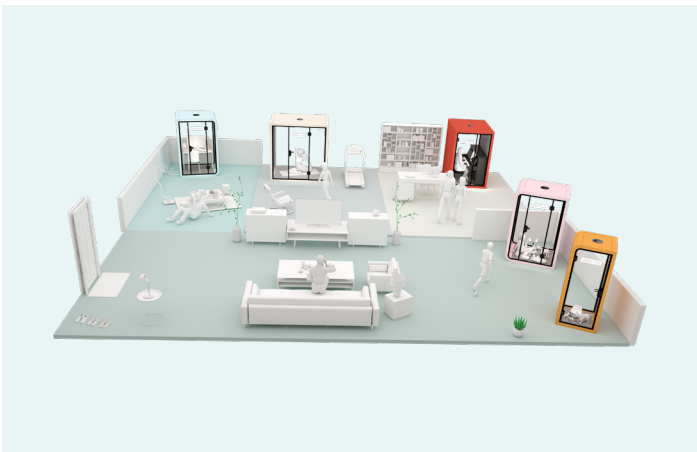

## FUNCTION

Everyday tasks in a private space.

## HOME

Extra modular room for the whole family.

## OUR STORY

Founded in 1994 in the Silicon Valley, Pactech started by providing custom data cables and wire harnesses for computer systems. As the rapid growth and evolution of the Internet, cloud computing, networking, and storage over the last two decades, our business has quickly advanced to become a leading cable and cabling provider for systems, data centers, buildings, and infrastructures.

Our mission is to deliver customers comprehensive cable offerings through innovative engineering, quality manufacturing, and supply chain efficiency. We serve a broad range of customers: cloud/service providers, high tech, manufacturing, transportation, utility, medical, and clean tech. Our reach of customers is beyond North America and includes Asia Pacific, Europe, and Latin America.
