

Pactech as Your Primary Manufacturer & Supplier for Smart Industrial Power Harnesses & Connectivity Projects

Power Cables for Battery Charging Technologies

Design Consideration: E-Bike Application requires Safety, Durability, and Performance – **Pactech Power Cables (PPC) with APP connectors** offer rugged, environmentally sealed, and waterproof high-power solutions

Power Cables for E-BIKE Applications

Hover Board

E-Bikes

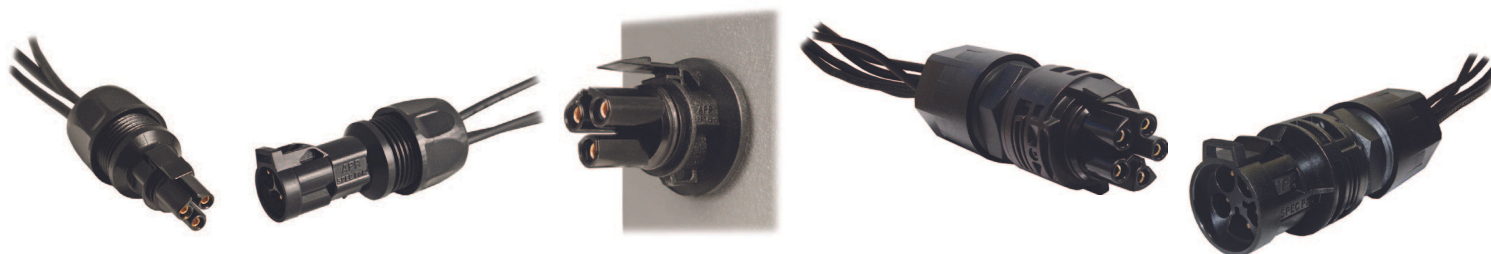

Scooters

Design Consideration for PPC with APP Connectors: Battery life, high current rating that can be as high as 600 amps

- *Conventional Charging
- *Opportunity Charging

3 Pole Mini PL SPEC Pak® / 5 Pole Mini PL SPEC Pak®

Power Cables for Material Handling Solutions

Pactech Power Cables with APP connectors are offered from 25A to 55A at 600 volts that meet safety standards.

Design Consideration: High Power with auxiliary contacts for requirements such as temperature sensing, power on/off, signage, etc. High Mating Cycles.

Electric Forklifts

Electric Lifts

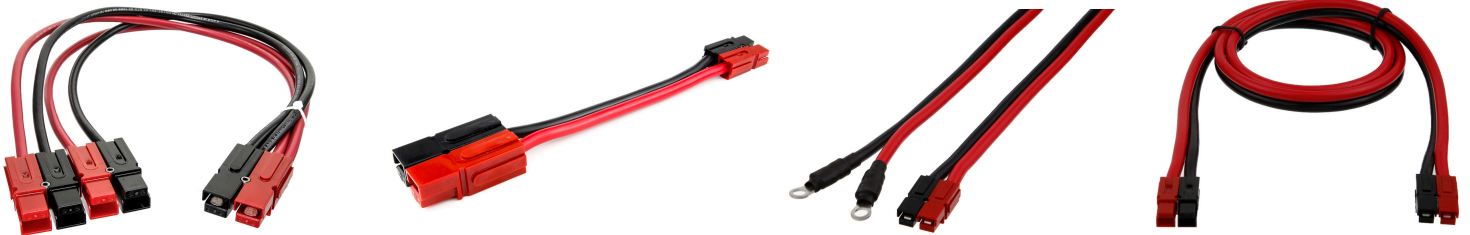

Battery Chargers

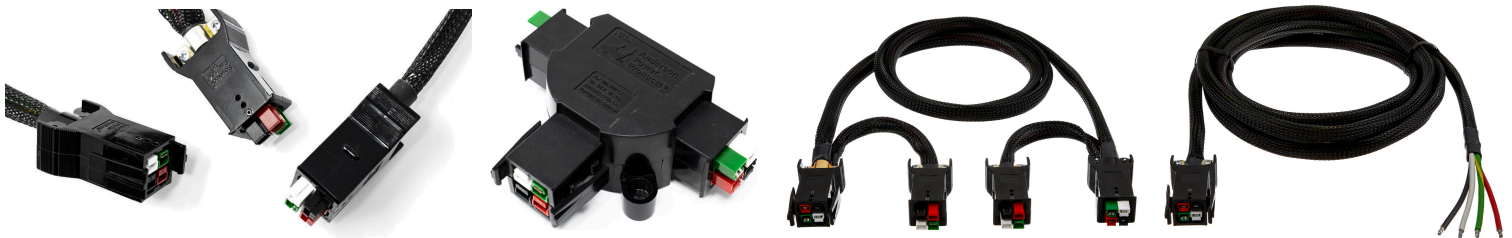

Reach Lifts

We Do: Powerpole® Cable Assemblies

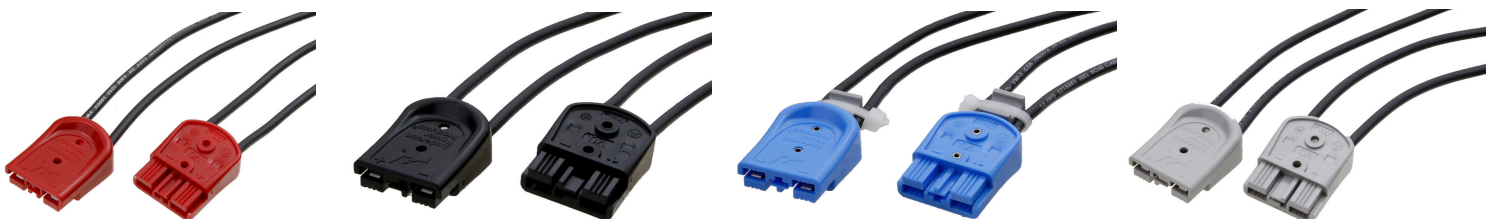

We Do: Powerpole® Pak Connectors / Assemblies

We Do: SBS® X-75A Cable Assemblies

We Do: SBS® Mini Cable Assemblies
